

# Somers Recreation & Leisure and K-Rockets Engineering & Technology School Engineering Workshop

K-Rockets Engineering Workshop is an exciting and interactive course tailored specifically for children who like to build!

This engaging program introduces young learners to the fascinating world of Engineering through a series of fun and educational activities and projects. Young innovators will explore various branches of Engineering, including Civil, Mechanical, Electrical, and Aerospace. They'll get a taste of what it's like to be an engineer in different fields. Learning by doing is at the core of our approach. The course includes fun age-appropriate Engineering projects, from designing and building structures to constructing simple machines. Kids will work in teams, learning how to communicate effectively and work together to achieve common goals.

This workshop will inspire creativity by encouraging students to think outside the box, invent solutions, and unleash their imaginative potential!
